Data Updates and Revisions

Date	Release Type	Description	Status
11/12/2026	SDA	Today's upload includes edits to three variables in the SDA codebook: HOMEAMT: Added missing data codes. HOMEOWN: Changed variable label to "Home Ownership." Changed category labels from "Owns or is buying" to "Owns home" and "Rent" to "Does not own home." NUMADT: Added minimum, maximum, and missing data codes. Added category label of 5 to reflect topcoding.	Updated on 11/12/2026 at 3:30pm
11/12/2026	SDA	Today's database update corrects the following data issues. Note that no other historical data was changed and aggregate estimates are unaffected. 1. NEWS2 was corrected for a single case in 202405 due to a typographical error. 2. Historical values of NUMADT for 3 cases between 202408-202410 have been revised to correctly reflect internal topcoding. 3. HOMEAMT and HOMEOPEN have been corrected for a single case in 202408 to correctly reflect internal topcoding.	Updated on 11/12/2026 at 3:30pm
11/12/2026	SDA	Data from March 2026 through September 2026 have been added to the archive	Updated on 11/12/2026 at 3:30pm
9/22/2026	SDA	Data user note: Any observations of the variable HOMEAMT taking the value of 9999998 should be treated as missing.	N/A
3/27/2026	SDA	Today's database update corrects the following issues: 1. Decimal point error in HOMPX* variables (present in 3/20/2026 update). 2. Decimal point error in PJOB, PSSA, PSTK 3. Error in YTL50 for data between 197910 to 198602: YTL50 now consistently reports if the respondent's income is above or below median, as specified in the codebook; some earlier vintages of the database YTL50 erroneously reported income quintiles, which are separately reported in YTL5. 4. A small number of historical values of PX1Q2 and PX5Q2 from between between 202404 and 202511 have been revised to correctly reflect internal editing, topcoding, and bottomcoding. Note that historical aggregate estimates are unaffected and unrevised.	Updated on 3/27/2026

3/20/2026	SDA	Revisions were applied to historical microdata for the following variables for some observations between 202404 and 202511: 1. NUMKID has been revised to distinguish respondents who reported having no children from respondents who did not provide a response to the question on whether or not they have children. 2. A small number of values of PX1 and PX5 have been revised to correctly reflect internal editing, topcoding, and bottomcoding. Note that historical aggregate estimates are unaffected and unrevised.	Revisions completed on 3/20/2026 12:20pm. PX1Q2 and PX5Q2 values for affected observations will be revised in a future update.
3/20/2026	SDA	Data from December 2025, January 2026, and February 2026 added to the archive	Updated on 03/20/2026 12:20pm.
12/15/2025	SDA	For observations where METHOD==2, values of EHSGRD and ECLGRD have been corrected; the affected cases are from April 2024 through September 2025 only. They are now harmonized with the primary educational attainment variable, EDUCATION. There are no changes to any values of EDUCATION from the previous version of the database.	Revisions made on 12/15/2025.
12/15/2025	SDA	For all observations where METHOD==2, INCQFM, HOMEQFM, and INVQFM have all been set to all missing on a temporary basis; the affected cases are from April 2024 onward. We are in the process of re-generating these variables using paradata and will repopulate these variables when that process is complete.	Revisions made on 12/15/2025. Repopulation of values pending.
12/15/2025	SDA	For CASEID 183920 from September 2003, REGION was changed from 6 to 4 to correct a typographical error.	Revisions made on 12/15/2025.
12/15/2025	SDA	Data from October and November 2025 added to the archive	Updated on 12/15/2025 at 10:00am.
10/3/2025	SDA	Today's update of the archive retroactively implements a topcoding of household income at $500,000 that affects a handful of cases between June and December of 2024. Note that income data for 2025 have already been topcoded. No other historical data was changed.	Revisions made on 10/3/2025.
10/3/2025	SDA	Data from September 2025 added to the archive	Updated on 10/3/2025 at 10:30am
9/17/2025	SDA	Data from August 2025 added to the archive	Updated on 9/17/2025 at 4:00pm.
8/8/2025	SDA	Data from July 2025 added to the archive	Updated on 8/8/25 at 10:00am.
6/27/2025	SDA	Today's update of the archive corrects values of the variable DATEPR for 7 cases in 2017, as well as values for DATEPR and IDPREV for a single case in 1990. No other historical data was changed.	Revisions made on 06/27/2025.

6/27/2025	SDA	Added DATEPR and DATEPR2 to SDA dataset	
6/27/2025	SDA	Data from May and June 2025 added to the archive	
5/2/2025	SDA	Added IDPREV2, DATEPR2, SAMPLE, METHOD, WT_HH, WT_QUINTMED to SDA dataset. DATEPR2 was created but left blank until the upload done in June 2025.	
5/2/2025	SDA	Data from April 2025 added to the archive	
2/21/2025	Aggregate estimates	There was a minor technical error in the generation of weights used to aggregate estimates for January 2025 only. Note that overall, the differences between the estimates originally released and the revised estimates are almost negligible. Please see Revisions to Estimates (2025) for more details.	Revisions made on 2/21/2025.
2/21/2025	Aggregate estimates	Historical data for Table 46 Expected Change in Home Values During the Next Year (time series variables named HOMPX1_*) for May 2024 through December 2024 will be updated to correct an intermediate data processing issue. On 10am on Friday, February 21, the estimates published in the February 2025 final release databook, along with all tables and charts that appear that appear on our websites will reflect these revisions.	Revisions made on 2/21/2025.
2/21/2025	SDA	Minor revisions to the microdata over the past year (improving the harmonization of data based on web interviews with that based on historical phone interviews, the removal of respondents later deemed ineligible, etc). Please see Revisions to Estimates (2025) for more details.	Revisions made on 2/21/2025.
12/2/2024	SDA	Data from November 2024 added to the archive	Updated on 12/2/2024 at 2:00pm.
11/1/2024	SDA	Data from October 2024 added to the archive	Updated on 11/1/2024 at 10:00am.
10/4/2024	SDA	Data from September 2024 added to the archive	Updated on 10/4/2024 at 10:30am.
9/6/2024	SDA	Data from August 2024 added to the archive	Updated on 9/6/2024 at 10:30am.
8/2/2024	SDA	Data from April, May, June, and July 2024 added to the archive	Updated on 8/2/2024 at 10:00am.
7/12/2024	Disaggregated data by demographic groups	July 2024 preliminary estimates on demographic splits displayed on data.sca.isr.umich.edu were corrected. Tables and charts that report demographic splits that were downloaded from our data site between 10am July 12, 2024 and noon July 12, 2024 should be replaced with the corrected data. Demographic splits for earlier months, along with all aggregate estimates (including headline sentiment indexes and inflation expectations) were unaffected by the error.	Revisions made on 7/12/2024 at 12:00pm.
4/5/2024	SDA	Data from March 2024 added to the archive	Updated on 4/5/2024 at 10:00am.

10/27/2023	SDA	There was a minor technical error in the generation of the weights for interviews between November 2022 and September 2023. The corrected weights are now available for download from the Surveys of Consumers SDA Archive. Please see Revisions to Estimates (2023) for more details.	Revisions made on 10/27/2023 at 10:30am.
10/27/2023	Aggregate estimates	There was a minor technical error in the generation of the weights used to compute aggregate estimates between November 2022 and September 2023. We have since corrected the weights. The revised estimates in the October 2023 final release databook, along with all charts and tables that appear in the summary report, our main site (www.sca.isr.umich.edu), our data site (data.sca.isr.umich.edu), and our microdata repository (sda.umsurvey.org) reflect these revisions. Overall, the differences between the estimates originally released and the revised estimates are almost negligible, as seen in the comparisons below. We are notifying users of this correction in keeping with our commitment to the transparency, accuracy, and integrity of the data we provide to the public. Revisions to Estimates (2023)	Revisions made on 10/27/2023.
